

## **WWNRT BOARD PROPOSES RULE AMENDMENT**

At the suggestion of Board Chair Delaine Roberts, the WWNRT is proposing to add a "Quick Grants" process for projects requesting less than \$2,500.00 from the Board. The purpose of the amendment is to encourage local and youth activities that will enhance wildlife and natural resources. The proposed amendment will be in Chapter 7, and reads as follows:

### ***Section 7. Quick Grants.***

The Board may annually allocate funds for the purpose of enhancing or maintaining the natural resources or wildlife of Wyoming through small local projects, provided such awards are allocated to a qualified applicant. Quick grants may be awarded at any time throughout the year upon proper application. Quick grants shall require the approval of the Board at any regularly held meeting. No individual quick grant shall exceed \$2,500.00, and quick grants shall not constitute more than two percent (2%) of the total funds allocated for projects in any given year.

Please contact the WWNRT office with questions or comments. The comment period is expected to run 45 days from October 20, 2009, and the Board anticipates acting on the rule change at their regular meeting December 14, 2009, in Wheatland.
